

## ONE ADDED PAGE FOR EXCHANGE

Find on <https://coinvote.cc/>

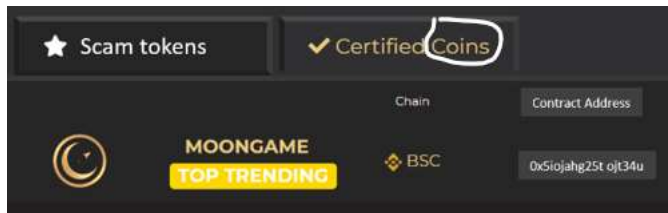

1. Remove things

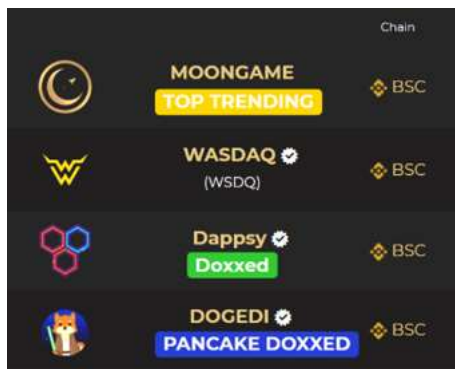

All this stuff is not needed. Don't do it

## 2. Amend things

Change the word Coins to Tokens

Change the tokens and the contract addresses

a)  ROOCOIN 0x30b29c6c03546f6395ddb454538d0eb7e4a6e32f

b)  Promise Token 0xcbccf14b051947bdcd1e20b77015208a1ad5ea25

**I will provide more tokens.**

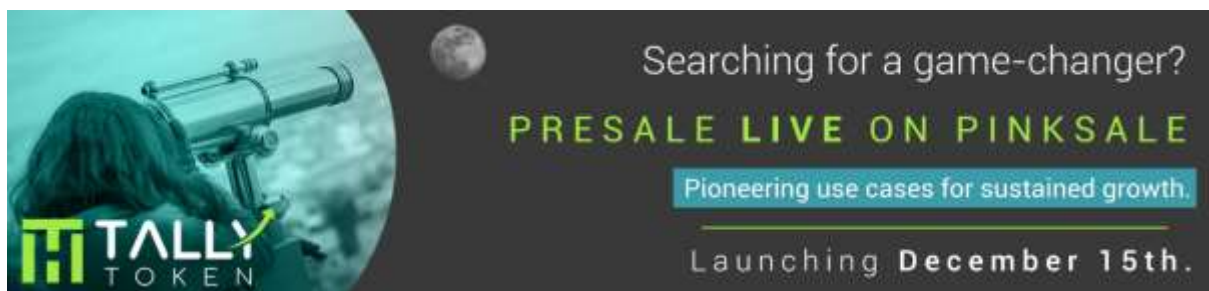

### 3. Add things

Add a Token Address Search Bar

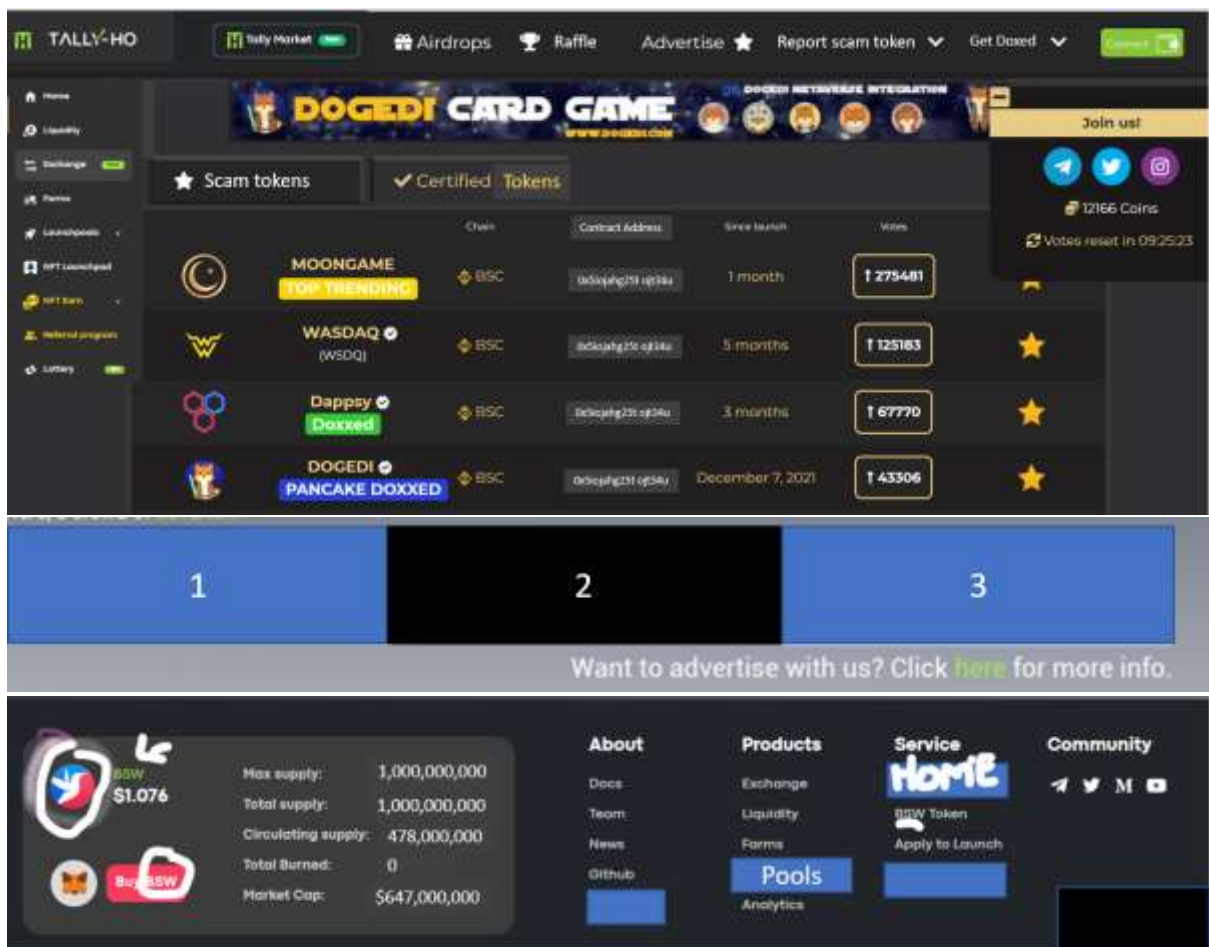

### 4. Adverts

There should be space for an advert at the top like on the website. This banner should link to:

<https://www.pinksale.finance/#/launchpad/0x298cDdf791b5cE17A543557D61F696dA8c2dD0a0?chain=BSC>

Below the box there should be 3 spaces for adverts

**The side menu**, be aware that order of the menu is being amended around. So, this design should not interfere with the Side menu.

The footer is being sorted by us so don't need to worry about that but bare in mind it will have to be compatible to use the footer already on the exchange

**TO BE COMPLETE BY TUESDAY 7<sup>TH</sup>**

+++++  
LOGIC AND SMART CONTRACT

Airdrops will redirect to Airdrops page

Advertise will activate smart contract

Report a scam will bring up a contact form – reportascam@tally-ho.org

Get Doxxed will bring up a contact form doxme@tally-ho.org

Add social links

Token	Chain	Contract Address	Since launch	Votes
MOONGAME TOP TRENDING	BSC	0x544e19111914e...	1 month	↑ 275481
WASDAQ (WSQ)	BSC	0x544e19111914e...	5 months	↑ 125183
Dappy Doxxed	BSC	0x544e19111914e...	3 months	↑ 67770
DOGEDI PANCAKE DOXXED	BSC	0x544e19111914e...	December 7, 2021	↑ 43306

2 different groups of tokens one for scams and ones we approve/certify

Place where Tally Ho will be able to paste contract address and the Token Logo, name will automatically populate Done on dashboard.

Voting should work and controlled so people cant double vote.

**TO BE COMPLETE BY FRIDAY 10<sup>TH</sup>**

+++++

## Smart Contract and Logic -

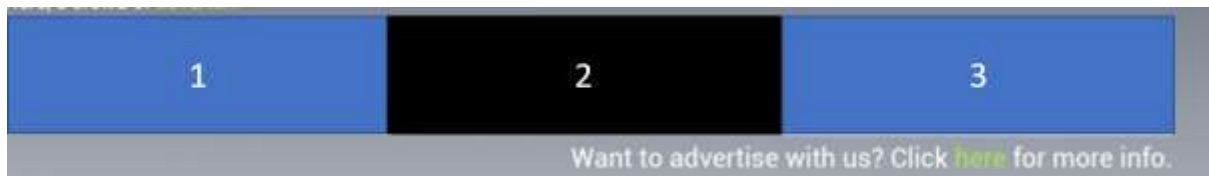

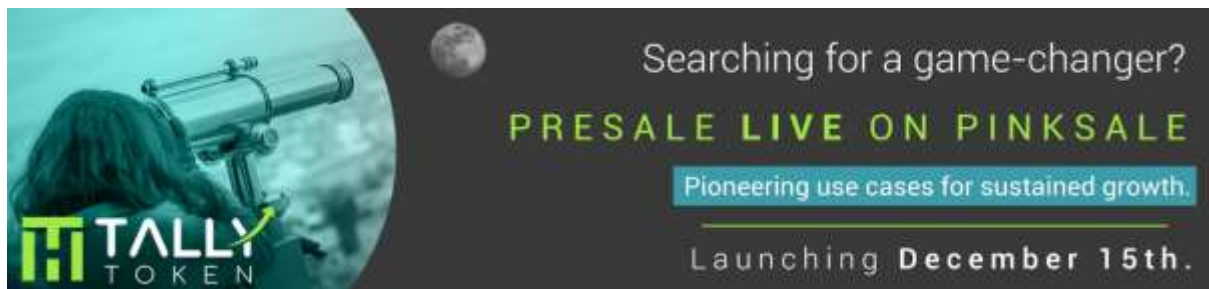

It is important to focus on the adverts on this page. This is all about the adverts

Amount of adverts = 4                      Banner on top and 3 at the bottom

**Banner at the top** - This should be able to hold 10 adverts that would change on every refresh of the page. Or basically, when several visitors visit the site, they won't necessarily see the same advert.

**Adverts at the bottom** – Each Advert Place holder should be able to hold 10 adverts. Same process as the banner.

Obviously Adverts should be clickable and lead somewhere

## The Smart Contract

When user clicks on Advertise on top menu or here, a pop up box should appear with options

**Option 1** – Want to advertise on the banner space. They should be able to upload the banner (size should be given) and then there should be a set charge based on length of time displayed (days) and the link they want for redirecting if someone clicks on the ad.

Example 1 BNB = 1 week

1.5 BNB = 2 weeks etc. This will be decided

**Option 2** - Want to advertise on the 3 space below. They should be able to upload the advert (size should be given) and then there should be a set charge based on length of time displayed (days)

Example 0.5 BNB = 1 week

1 BNB = 2 weeks etc. This will be decided.

**Click on Accept or Confirm** – The Connect Wallet should activate and smart contract does the transaction.

For the top banner, there will be a wallet address provided that transaction

For the bottom ads, there will be a wallet address provided that transaction

**TO BE COMPLETE BY TUESDAY 14<sup>TH</sup>**
